PERSONAL STATEMENT

I am a second year Computer Science student seeking a summer internship in Software Development. Strong foundation in programming, algorithms, and data structures. Experienced in teamwork, programming and problem solving through personal/university projects and from previous work experiences.

EDUCATION

Bachelor of Computer and Information Sciences   **Expected Graduation: Nov 2024**
Auckland University of Technology
Major: Software Development **Minor:** Data Science

PROJECTS

Personal Portfolio - [Website](#) - [GitHub](#)
Improved iteration of a personal portfolio website built with **HTML, CSS, Bootstrap** and **JavaScript**. This website showcases my portfolio to provide an aesthetically pleasing and user-friendly interface in demonstrating my skills as a software developer. **Multiple projects** are showcased to demonstrate my understanding of Software development **fundamentals**.

Fitray Website – [Website](#) - [GitHub](#)
The website utilizes BMI calculation to recommend personalized fitness plans using **algorithms** and **functions** in **JavaScript.** The plans include various workout routines, diet tips, and resources to help users achieve their fitness goals, focusing on creating a **user-friendly** and **efficient** platform.

Discord Spotify music recommender bot – [GitHub](#)
Developed a Discord bot that recommends music based on a Spotify track using the **Discord.js library** and **Spotify Web API**. The bot handles user input errors and sends a formatted list of recommended tracks to the Discord channel. This project **showcases** my skills in creating **functional Discord bots** and working with **API integrations.**

WORK EXPERIENCE

Gallagher   **December 2021 – March 2022**
Production Team Member
Melville, Hamilton
- My contributions played a **critical role** in maintaining **production efficiency** by ensuring production equipment was well-maintained and effectively managed **part reject control**. My strong **communication skills** allowed me to work **collaboratively** with other teams across **different departments**, demonstrating my **adaptability** and **flexibility** in a **dynamic work environment.**

New World   **November 2019 – February 2020**
Deli Kitchen Assistant
Hillcrest, Hamilton
- As a **Customer Service** and Order Specialist, I provided **exceptional service** to customers and consistently met their needs in a timely and **efficient** manner. My ability to **adapt** to different shift teams and **collaborate effectively** allowed me to maintain a **high standard** of cleanliness, health and safety, and quality control. Overall, my **strong customer service skills** and ability to work **collaboratively** contributed to the overall success of the team.
